

## Speaking practice: interview questions

Look at the comics. Discuss with your group what is wrong in the DON'Ts column (lo que no hay que hacer; por supuesto, muchos son chistes, exageraciones) and share what you would answer in the DOs column (lo que sí hay que hacer). You can also look at the interview questions and answer them with your group. Use the different expressions and vocabulary you learned this class (and the previous one, too)

### Professional practice: Interview questions:

Here are some typical interview questions:

- What are your strong/ weak points? (strengths/weaknesses)
- Why are you interested in this job?
- Are you fluent in more than one language?
- Are you computer literate<sup>1</sup>? What software are you familiar with?
- What do you see yourself doing 5 years from now?
